Local Return Overview

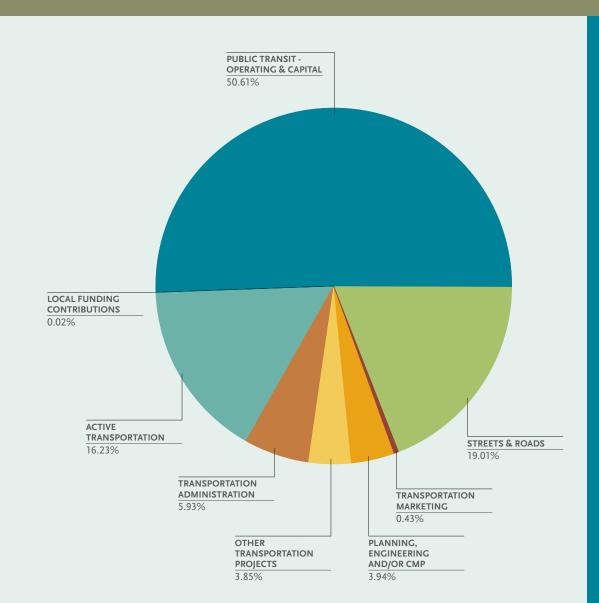

What is Local Return?

As an integral part of Los Angeles County's transportation programs, the Local Return portion of our transportation funds derived from sales taxes are re-allocated back to the county's local governments to address specific transportation needs of each individual jurisdiction. Nearly \$500M is allocated annually to the county's 88 cities and unincorporated areas to fund various transportation programs that jurisdictions need to best serve their own communities.

Over 50% of local return funds are invested in local public transit. More than 40 cities sponsor their own fixed route transit systems with minimal or free fares that greatly improve mobility in Los Angeles County. Annually, these local transit systems provide over 800,000 hours of service and nearly 25,000,000 boardings. The Los Angeles Community Dash, Glendale Beeline, and Pasadena ARTS are just a few examples of fixed route services offered by individual cities to serve their local transportation needs. In many cases, cities also offer dial-a-ride services for the elderly and disabled, vanpool, shuttle services and fare subsidies to their residents.

In addition to funding transit services, cities use their Local Return funds to improve and maintain local streets. In whole or in part, the Local Return program provides the funding necessary for jurisdictions to repair and maintain local streets, enhance their capacity and improve safety. Operating costs associated with centralized traffic signal control systems, including coordinated timing, multi-jurisdictional or inter-community systems and signal priority systems are also funded by Local Return. The Local Return Program also enables local governments to provide other essential local components of our overall transportation system, such as bus stops, park and ride lots, bicycle access, pedestrian access and safety and security.

In summary, the Local Return Program is funded from three sales tax measures (Proposition A, Proposition C and Measure R) and enables jurisdictions to provide and maintain the fundamentals of transportation at the local level.

Local Return Expenditures (FY10 - FY15)

Source of Funds

Local Return Programs are funded from three sales tax ordinances approved in Los Angeles County, each generating about \$760M annually.

Proposition A, approved by voters in November 1980, was the first local sales tax of its kind to bolster Los Angeles County's ability to respond to gridlock and mobility challenges. This key funding source was the first to generate revenues that were used to build the Metro Rail system and a host of other rail and bus projects.

Twenty-five percent (25%) of Proposition A funds is dedicated to the Local Return Program. The Proposition A Ordinance requires that Local Return funds be used exclusively to benefit public transit. Eligible uses include expenditures related to fixed route and paratransit services, Transportation Demand Management, Transportation Systems Management and fare subsidy programs.

Proposition C was approved by voters in November 1990. This proposition was intended to provide funding to help improve and expand the rail system started with Proposition A funds.

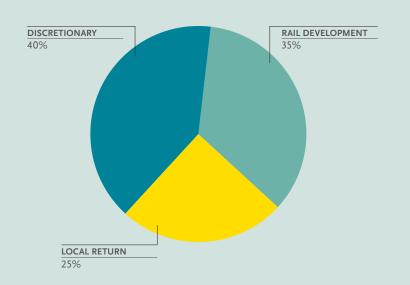

Twenty percent (20%) of the revenue from the sales tax is dedicated to the Local Return Program. Similar to Proposition A, the Proposition C Ordinance requires that these funds be used by the cities and the county to benefit public transit.

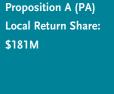

The Proposition C Ordinance provides an expanded list of eligible project expenditures including Congestion Management, bikeways and bike lanes, street improvements and pavement management system projects. Projects must demonstrate a public transit benefit or be performed on streets heavily used by public transit.

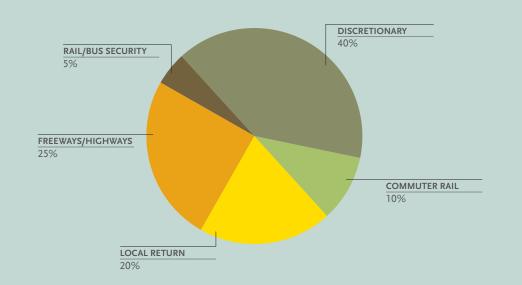

Measure R was approved by voters in November 2008. Measure R is a sales tax for Los Angeles County to finance new transportation projects and programs, and accelerate those already in the pipeline.

Fifteen percent (15%) of Measure R tax is dedicated to the Local Return Program. The ordinance specifies that Local Return funds are to be used for transportation purposes including major street resurfacing, rehabilitation and reconstruction, pothole repairs, left turn signals, bikeways, pedestrian improvements, streetscapes, signal synchronization and transit.

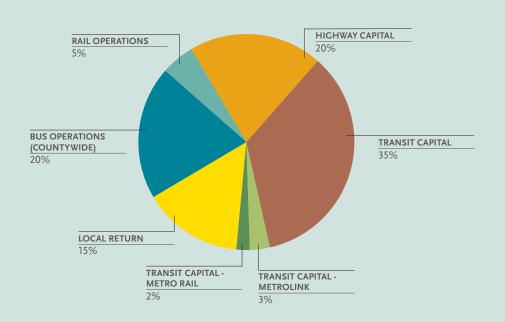

Jurisdictions are encouraged to apply their Measure R Local Return funds towards multijurisdictional projects that demonstrate coordination efforts or promote sustainability, specifically projects that support other Measure R rail, bus and highway corridor projects.

\$113M

Los Angeles County Subregions (1)

Los Angeles County is a large diverse region with more than 10 million residents in 88 cities and unincorporated areas of the county. Due to its size (4,750 square miles) and complexity, nine geographic subregions have been identified for planning purposes.

The subregions vary in form, but all consist of the area's local government representatives and share the goal of cooperatively addressing regional priorities and matters of mutual interest.

The amount distributed is based on the projected population shares as derived from annual estimates made by the California State Department of Finance and are revised annually.

Summary of Expenditures by Subregion FY10 - FY15 (\$ in Thousands)

North County has a population of over 600,000 people and consists of 3 cities and unincorporated areas of north Los Angeles County, covering 2,452 square miles.

San Fernando Valley
has a population of over
1.4 million people and
consists of 1 city, parts
of Los Angeles City and
unincorporated areas of
north west Los Angeles
County, covering 268
square miles.

Arroyo/Verdugo has a population of over 500,000 people and consists of 3 cities and unincorporated areas of north east Los Angeles County, covering 85 square miles.

San Gabriel Valley has a population of over 1.4 million people and consists of 29 cities and unincorporated areas of east Los Angeles County, covering 324 square miles.

Notes

- 1) The cities' total actual expenditures are allocated to their project budgets and may not agree with actual project expenditures.

 Project categories as outlined in the Local Return Guidelines were further grouped in major categories for presentation purposes.

 Projects that are likely to contain Active Transportation Policy elements are categorized as Active Transportation.
- 2) Totals may not add due to rounding.

Project Eligibility Guidelines (1)

1. Streets & Roads

Planning, right-of-way acquisition, engineering, administration, construction, improvement, maintenance, and operation of public streets and roads, highways and exclusive public mass transit guide ways, and their related public facilities for non-motorized traffic, including the mitigation of their environmental effects, all costs associated with property acquisition for such purposes. Streets & Roads improvements may consist of, but not limited to, the following:

- > Repair and maintenance of public roadways, pavement maintenance, slurry seals, chip seals, pot-hole repair, pavement rehabilitation and roadway reconstruction, curb, gutter, sidewalk, roadway signage and catch basin repair (storm drains) in connection with any roadway improvements
- > Capacity enhancements, street widening, pavement marking and striping or restriping
- > Exclusive bike or bus lanes
- > Roadway safety improvements such as soundwalls, roadway lighting raised median or roadway signage, or other
- > Americans with Disabilities Act ("ADA")
- > Complete streets

2. Traffic Control Measures

Signal Synchronization, Transportation Demand Management ("TDM"), Transportation Systems Management ("TSM"), Intelligent Transportation System ("ITS"), traffic signal modification, signalization of turns,, traffic management center, and traffic safety.

TDM projects are defined as strategies/actions intended to influence how people commute, resulting in minimizing the number of vehicle trips made and vehicle miles traveled during peak travel periods.

- a) Signal Synchronization. The research, planning, design, engineering, administration, construction, improvement, maintenance, and operation of traffic signals and traffic signal improvement projects, in particular those improvements required to install and maintain traffic signal synchronization and coordinated traffic signal timing across jurisdictions. Signal Synchronization improvements may consist of, but are not limited to, the following:
 - > Installation of new traffic signal
 - > Installation of left-turn phasing
 - > Maintenance, repair, replacement and/or upgrade of traffic and pedestrian signal equipment
 - > Installation, repair, maintenance of vehicle detection system which may include operation as a fully traffic actuated signal
 - > Installation of time-based coordination; installation and maintenance of traffic signal coordination timing
- b) TDM-eligible project expenditures may consist of, but are not limited to, the following:
 - Vanpool and/or vanpool incentive programs, (as well as carpool and biking incentive programs) including ride matching programs (must be made available to all employers and/or residents within the Jurisdiction boundaries)
 - > Community-based shuttles for employees, if such services complement existing transit service

- Parking management incentive programs, including parking cash outs or parking pricing strategies
- > Employer or citizen ride-matching programs and subsidies
- > Transportation Management Organization's ("TMO") insurance costs or individual employer's vanpool programs under the umbrella vehicle insurance policy of the Jurisdiction
- Matching funds for LR-eligible projects such as Safe Routes to School projects and highway safety projects
- > Car sharing programs
- c) TSM-eligible project expenditures for relatively low-cost, non-capacity-enhancing traffic control measures that improve vehicular flow and/or increase safety within an existing right-of-way. TSM projects consist of, but are not limited to, the following:
 - > Reserved bus lanes (no physical separation) on surface arterials
 - > Contra-flow lanes (reversible lanes during peak travel periods)
 - > Ramp meter by-pass (regulated access with bus/carpool unrestricted entry)
 - > Traffic signal priority for buses (to allow approaching transit vehicles to extend green phase or change traffic signal from red to green)
 - > Preferential turning lanes for buses
 - > Other traffic signal improvements that facilitate traffic movement

Traffic Control Measures - Eligibility Restrictions

LR ⁽¹⁾ funds may not be used to alter system/signal timing that was implemented under a traffic forum project/grant, unless coordinated with all affected Jurisdictions in the corridor. If a LR-funded project is or has an ITS component, it must be consistent with the Regional ITS Architecture.

3. Bikeways & Pedestrian Improvements

Bikeway and Pedestrian improvements are for public uses and should follow ADA and California Title 24 specifications for accessibility requirements. Bikeways and Pedestrian improvements may consist of, but are not limited to, the following:

- > Bike/pedestrian facilities (including bike storage), sidewalks, related lighting, construction and maintenance,
- > Signage, information/safety programs
- > Lighting for bike and pedestrian safety
- > Bike signal, bike detection, bike valet, bike lane and bicycle parking
- > ADA improvements, streetscapes, crossings and curb cuts
- > Bike sharing
- > Bike Safety and Bike Education

4. Public Transit Service

Proposed new or expanded transit or paratransit services must be coordinated with LACMTA and other affected existing regional bus transit systems to determine the proposed service's compatibility with the existing service(s). LACMTA may request that the proposed service be modified. Proposed services must also meet the criteria outlined under "Non-Exclusive School Service" and "Specialized Transit". Emergency Medical

Note

(1) This project eligibility guidelines provides general guidance only and are not the sole determinant for project approval. The authority to determine the eligibility of an expenditure rests solely with Metro.

Each sales tax measure has specific guidelines on how Local Return funds are to be used, refer to guidelines to determine project eligibility. 46

Transportation is not an eligible use of LR funds. Public transit service expenditures may include, but are not limited to, the following:

- > New fixed route, paratransit (Elderly and Disabled and/or General Public) or Flexible Destination bus service
- > Extension or augmentation of an existing bus route(s) and coordination of existing paratransit service
- > Contracting with a transit operator or private provider for transportation services
- > Contracting with transit operator in an adjacent county to provide transportation services within Los Angeles County
- > Operating subsidy to existing municipal or regional bus operator
- > Service enhancements related to bus/rail interface
- > Shuttle service between activity centers
- > Fare subsidy, subsidized taxi service for disadvantaged residents
- > Taxi coupon programs providing paratransit systems for senior and disabled patrons
- > ADA related improvements to fixed route or paratransit operations
- > Transit security
- > Recreational transit

Public Transit Services - Eligibility Restrictions

- a) Non-Exclusive School Service includes fixed-route bus services or demandresponsive services available to the general public, which also provide school trips, are eligible for LR funding. Exclusive school bus services are not eligible. Projects must meet the following conditions:
 - > The bus vehicles utilized cannot be marked "School Bus" or feature graphics that in any way indicate they are not available to the general public. Yellow paint schemes should not be for the specific purpose of meeting the vehicle code definition of a school bus
 - > The bus head sign is to display its route designation by street intersection, geographic area, or other landmark/destination description and cannot denote "School Trip" or "Special." In cases where the service includes an alternate rush-hour trip to provide service by a school location, the dashboard sign is to indicate the line termination without indicating the school name
 - > Timetables for such services will be made available to the general public and provide the given schedule and route but must not be labeled "school service"
 - > Drivers must be instructed that such service is available to the general public and board and alight all passengers as required at designated stops
 - > The same fare payment options must be made available to all users
 - > The overall transportation service provided in the Jurisdiction must not be for school service hours only
- b) Specialized Public Transit, special-user group service or social service transit may be eligible where it can be incorporated into the existing local transit or paratransit program. Jurisdictions must demonstrate that existing services cannot be modified to meet the identified user need. Projects must meet the following conditions:
 - > The special user group identified does not discriminate on the basis of race, religion, sex, disability or ethnicity

- > Service shall be available to all members of the general public having that specialized need and not be restricted to a specific group or program
- > Service shall be advertised to the general public
- > LACMTA may require, as a condition of approval, inter-jurisdictional project coordination and consolidation
- > LR funds may only be used for the transportation component of the special user group program, i.e., direct, clearly identifiable and auditable transportation costs, excluding salaries for specialized escorts or other program aides
- > The designated vehicle(s) used must be made available for coordination with other paratransit programs if space permits
- c) Recreational Transit Services are eligible for travel within a 300 mile radius of the designated point of departure within the Jurisdiction. All eligible trips must be made within California, and eligibility restricts the use to day trips (no overnight trips). Trips may be limited to certain general age groups (e.g., children under 18, senior citizens, persons with disabilities); however, trips must be made available to all individuals within that designated group. Special events or destinations may be served; however, all members of the general public including individuals with disabilities must be allowed to use the service.

LR funds may not be used to pay the salaries of recreation leaders or others involved in recreational transit projects. All recreational transit trips must be advertised to the public, such as through newspapers, flyers, posters, and/or websites.

5. Public Transit Capital

Bus/rail improvements maintenance and transit capital. Jurisdictions must coordinate bus stop improvements with affected transit operators. Jurisdictions that propose replacing privately owned benches or shelters must notify the affected operator(s) before requesting Jurisdictional project approval. Public Transit Capital projects may consist of, but are not limited to, the following:

- > Bus stops, stations
- > Vehicles (new, replacement, and/or maintenance)
- > Transit facilities
- > Transportation Enhancements (TE) park-and-ride lots
- > Right of way improvements
- > Farebox systems
- > Transit Access Pass (TAP)
- > Universal Fare System (UFS), ITS
- > Bus/station amenities
- > Transportation technical systems
- > Transit security

6. Transportation Marketing

If promotional signage, literature, or other project marketing material is distributed or displayed as part of a Measure R project outreach or marketing activity, Jurisdictions are encouraged to include a notation indicating that Measure R funding was used to fund the project. Marketing projects may consist of, but are not limited to, the following:

- > Transportation kiosks and/or transit pass sales centers
- > Transportation information amenities such as maps, brochures, transportation signage
- > Transportation user subsidy programs
- > Promotions and events
- > GIS mapping of bikeways & other bikeway information
- 7. Planning, Engineering and/or Study, Congestion Management Program (CMP)

 Planning, coordination, engineering and design costs incurred toward implementing an eligible LR project are eligible when the following conditions are met:
 - > The projects being planned (designed, coordinated, etc.) are LR eligible; coordination includes: Jurisdictions' start-up costs or dues for Councils of Governments (COGs) and Transportation Management Associations (TMAs); advocacy; and funding for Joint Powers Authorities (JPAs) by Jurisdictions or (COGs). If some activities are LR eligible and some are not, partial payment of dues must be made proportionally to the organization's budget for LR eligible projects
 - > TDM-related activities as required by the CMP. CMP project may consist of, but are not limited to: preparation of TDM ordinances; administration and implementation of transit or TDM-related projects pursuant to CMP deficiency plans; and monitoring of transit standards by transit operators

8. Transportation Administration

Transportation administration expenditures for those administrative costs associated with and incurred for the aforementioned eligible projects/programs. Direct administration includes those fully burdened costs that are directly associated with administering LR program or projects, and includes salaries and benefits, office supplies and equipment, and other overhead costs. All costs must be associated with developing, maintaining, monitoring, coordinating, reporting and budgeting specific Local Return project(s). Expenditures must be reasonable and appropriate to the activities undertaken by the locality. The administrative expenditures for any year shall not exceed twenty percent (20%) of the total LR annual expenditures.

Oversight & & Accountability

Propositions A & C

In November of 1998, Los Angeles County voters passed the MTA Reform and Accountability Act of 1998. This Act required an annual independent audit of Metro's spending of transportation sales tax revenues, established an independent citizens' oversight committee that monitors such spending, and prohibited the use of transportation sales tax revenues for future subway construction.

The committee is comprised of five members:

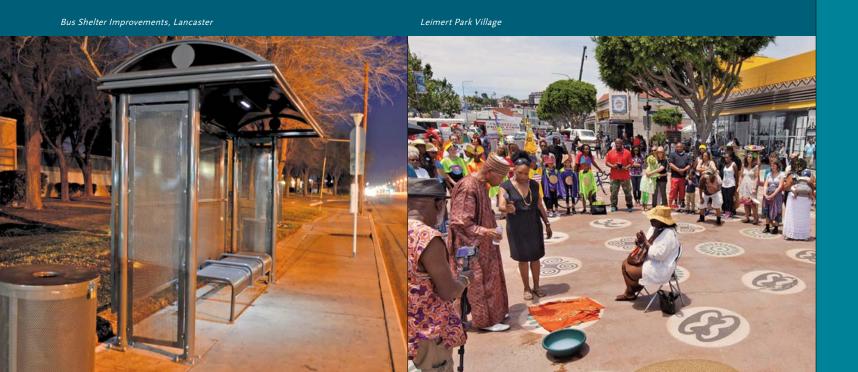

- > One member is appointed by the chair of Los Angeles County Board of Supervisors
- > One member is appointed by the Chair of the governing board of Metro
- > One member is appointed by the Mayor of the City of Los Angeles
- > One member is appointed by the Mayor of the City of Long Beach
- > One member is appointed by the Mayor of the City of Pasadena

Measure R

On November 4, 2008, Los Angeles County voters approved Measure R, which is also known as the Traffic Relief and Rail Expansion Ordinance to fund transportation improvements in the Los Angeles County. Section 8 of the ordinance establishes a Measure R Independent Taxpayers Oversight Committee of Metro and an oversight process to determine compliance by Metro with the provisions of the ordinance relating to the receipt and expenditures of sales tax revenues.

The committee is comprised of three members, each of which will be a retired Federal or State Judge.

- > One member will be appointed by the Los Angeles County Board of Supervisors
- > One member will be appointed by the Mayor of the City of Los Angeles
- > One member will be appointed by the Los Angeles County City Selection Committee
